

Our 2017 Yakima Valley Fair and Rodeo Online Registration is open.

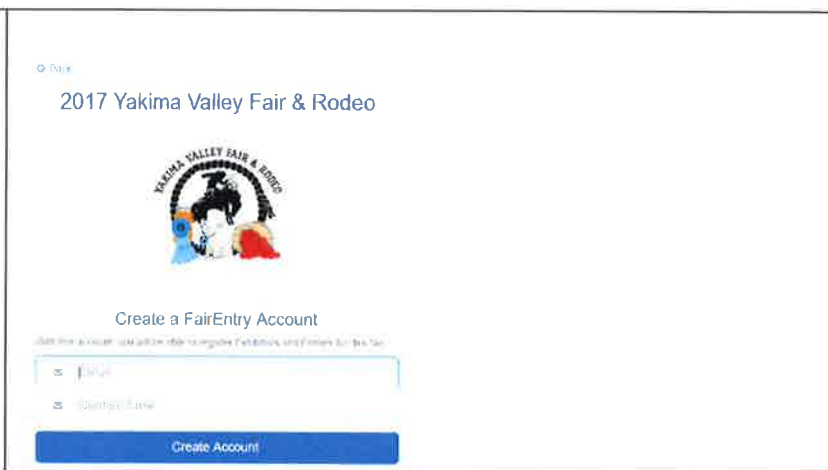

We are pleased to announce that we are moving our fair registration to a new software program. In the process, we are hoping to streamline the registration process, allow public access to results of shows, make it easier on the office staff, and make the checkout process for the sale more efficient. However, as with all change, there are going to be growing pains. Please do not hesitate to contact us if you have found a typo, something does not make sense, or is missing.

<http://yakimavalleyfair-rodeo.fairentry.com>

Here are some tips:

- Create a Family account. Each family has one account and each exhibitor in the family should be added to it. That means one payment at the end. 😊
- Your account will roll from year to year so pick a password that you will remember or a standard email that your family uses so that you can do a forgot password next year. 😊
- Please spell everything correctly. Including your home address. This seems like a no brainer but there are quite a few miss spelled streets in our old system. Remember this is what prints on your exhibitors check at the end of fair.
- Do not get frustrated. If you are having a hard time, chances are someone else is too and we are here to help.

Below is a very general step-by-step process to help you if you need it. Keep in mind that each animal, home ec project, or open class project's requirements could be different and the screen shot might look a bit different. If you are stuck, feel free to contact us by email at yakimavalleyfair.rodeo@gmail.com

<p>Step 1: Create an account</p>	
<p>Step 2: Click Begin Registration</p>	

Step 3: Fill in Account information.
 This information is for your entire family account. This page is not per exhibitor. That will come later in the registration process. Yes, you need two phone numbers. ☹️ It can be the same one. We could not change this requirement.

2017 Yakima Valley Fair & Rodeo

Account Creation

To continue with registration for this fair, please provide the following details

Email
change

Account Name
Example: Your last name

Phone Number
Format: ###-###-#### or #####-####

Password

 • 6 characters minimum
